

Look Ahead - February 2023

Wildfox Resorts will be back operating on site from February to kick start a programme of activities. This will include:

- Preparations for ecological management which will enable the movement of reptiles to an adjacent site
- Maintenance of onsite tracks
- Vegetation management in advance of further ground investigations
- Bracken management on the Southern site to enhance the land for biodiversity (previously referenced as the 'Solar Farm site')

In addition, the wider consultant team will be progressing key workstreams. This will include:

- Working through planning matters such as the energy strategy and Welsh language strategy
- Continued ground water and gas monitoring
- Further environmental assessments such as tree surveys, investigating historical mine shafts, and hydrology and peat analysis
- Designing associated transport infrastructure

Please note that all work will be carried out under the supervision of the Ecological Clerk of Works.

Safety Message:

There will be temporary closures on the Public Right of Ways which are located onsite. This will prevent access for pedestrians, cyclists and equestrian use between 1 February and 31 July. More information on the routes affected can be found via the [website](#).

Cip I'r Dyfodol - Chwefror 2023

Bydd Cyrchfannau Wildfox yn ôl ar y safle ac yn weithredol o fis Chwefror i ddechrau ar raglen o weithgareddau. Yn eu plith bydd:

- Paratoi am reoli ecolegol a fydd yn galluogi symud ymlusgiaid i safle cyfagos
- Cynnal a chadw traciau ar y safle
- Rheoli llystyfiant cyn gwneud mwy o waith ymchwilio i'r tir
- Rheoli rhedyn ar yr ochr ddeheuol i wella'r tir o ran bioamrywiaeth (ardal y cyfeiriwyd ati cyn hyn fel 'safle'r Fferm Solar')

Yn ogystal, bydd y tîm ymgynghori ehangach yn symud sawl llif gwaith allweddol yn eu blaenau. Bydd hyn yn cynnwys:

- Gweithio drwy faterion cynllunio fel y strategaeth ynni a'r strategaeth iaith Gymraeg
- Parhau i fonitro dŵr tirol a nwy
- Mwy o asesiadau amgylcheddol fel arolygon coed, archwilio siafftau pyllau glo hanesyddol, a dadansoddiadau hydroleg a mawn
- Cynllunio isadeiledd trafndiaeth cysylltiedig

Nodwch os gwelwch yn dda y bydd pob gwaith yn digwydd dan oruchwyliaeth y Clerc Gwaith Ecolegol.

Neges ddiogelwch:

Bydd yr Hawliau Tramwy Cyhoeddus a leolir ar y safle'n cael eu cau dros dro. Bydd hyn yn atal mynediad i gerddwyr, seiclwyr a phobl ar geffylau rhwng 1 Chwefror a 31 Gorffennaf. Gellir cael mwy o wybodaeth am y llwybrau a effeithir ar y [wefan](#).
